### MEXICAN AFFAIRS.

#### REPORTED ULTIMATUM.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 20.

Reuter's New York correspondent says a telegram from Mexico City states that the Mexican Government has handed Mr. Lind, the special Commissioner from Washington, a letter demanding recognition, while another letter was sent to Washington direct. These are regarded in New York as an ultimatum, as the United States is given until midnight to recognize the Mexican Government, and it is understood that a refusal will mean the severing of all relations.

Reuter's correspondent at Washington says the officials there deny the receipt of an ultimatum. Mr. Bryan has announced that he has only received news of President Huerta's rejection of the American suggestions for a peaceful settlement of the Revolution.

President Wilson and his Ministers are plainly disappointed at the rejection, and legislators take the view that the Government has done all that a friendly neighbor can, and that the only interest of the United States now is to protect lives and property, claiming indemnity for losses, and withdrawing all American citizens.

#### An Understanding.

Reuter's New York correspondent states that a conference took place between Mr. Lind and President Huerta last night, and it is believed to have resulted in an understanding which may render possible a continuance of the negotiations.

## OBITUARIES.

### GENL. SIR M. DILLON.

London, Received Aug. 20.  
The death in is announced of General Sir Martin Dillon, G.C.B., at the age of 78 years.

[The deceased General entered the Army in 1843, and reached the rank of General in 1892. His record of service was a remarkably fine one, including actions in the Crimea, the Indian Mutiny, China and Abyssinia. He was formerly Assistant Adjutant General in China.]

Professor Graham Kerr.  
London, Received Aug. 20.  
The death is reported of John Graham Kerr, F.R.S., Regius Professor of Zoology at the University of Glasgow since 1902.

[Professor Kerr was born in 1869 and was educated at Edinburgh and Cambridge Universities. He spent two years in zoological explorations in South America, especially on the Pileomayo River, and later made a special expedition to the Gran Chaco to investigate the habits and life-history of South American Lungfish. From 1897 to 1902 he was Demonstrator in Animal Morphology at Cambridge University, was Walsingham Medalist in 1891 and was a Fellow of Christ's Church, Cambridge, from 1898 to 1904. In this latter year he won the Neill Prize of the Royal Society of Edinburgh.]

Governor of Berber.  
The death is announced of the Governor of Berber.

[According to Whitaker's Almanack for this year, the Governor of Berber Province (Sadan) is Capt. C.H. Townsend.]

## OLYMPIC FUNDS.

### GIFT OF £1,000.

London, Received Aug. 20.  
The Duke of Westminster has contributed £1,000 towards the Olympic Funds.

## TELEGRAMS.

### BALKAN AFFAIRS.

#### GREEK REJOICINGS.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 20.

Reuter's correspondent at Athens states that unbounded enthusiasm was displayed on the King's entry into the capital. The streets were thronged with crowds carrying miniature Greek flags and laurel branches.

The people broke out into fervent cries of "Long Live Constantine the Great," "Long Live Constantine the Slayer of the Bulgarians."

A Royal procession went to the Cathedral, where a Te Deum was sung, and subsequently drove to the Palace, crowds running behind the cortege shouting for joy.

#### Peace Treaty Ratified.

Reuter's correspondent at Bucharest states that Rumania has ratified the Treaty of Peace.

#### Powers and Turkey.

Reuter's Sofia correspondent says Bulgaria has been informed that the Powers are concerning measures with a view to compelling Turkey to respect the Treaty of London.

#### Roumania's Promise.

Reuter's correspondent at Sofia states that Roumania has assured Bulgaria that evacuation will be completed by the 26th inst. and that she will indemnify the population against all losses sustained and will hand over the railways to-morrow (Wednesday).

#### Turkish Denial.

Reuter's correspondent at Constantinople reports that the Grand Vizier emphatically denies that Turkish troops have advanced into Bulgaria proper, but admits that the right bank of the Maritza, as well as Demotica and other strategic points northward thereof, have been occupied. He says this is solely to defend the railway which follows the right bank of the Maritza River.

## SOMALILAND PROTECTORATE.

In 1884, a Protectorate was established over the tribes on the Somali Coast, extending from Labadu (Loy-ada), halfway between Ras Jibouti and Zeila, to the 46th meridian E. long. The boundary has been settled by agreements with France, Italy and King Menelik of Abyssinia. Till 1898, the Somaliland Protectorate was administered by the Resident at Aden, as a dependency of the Government of India. In that year, it was transferred to the charge of the Foreign Office, and on 1st April, 1905, to that of the Colonial Office. The chief parts are Berbera, Bulhar and Zeila. Area about 68,000 square miles. The Haud waterless plains constitute the principal pastures of the country. The chief source of wealth of the people lies in their live stock.

In the beginning of 1901, operations were commenced against a fanatical Somali leader, the Mullah Mohammed Abdullah, and a native levy with British Officers, under Captain (local Lieut. Colonel) E. J. E. Swayne, Indian Army, penetrated into the Nogal Valley. After defeating the Mullah at Somala and Foddiddin, and killing 1,200 men and taking 600 prisoners, he drove him into Italian territory.

The dervishes after wards gathered together again, and a similar expedition, strengthened by the 2nd King's African Rifles (Yaos), was despatched under Colonel Swayne in the summer of 1902, and again drove the Mullah into Italian territory with

## TELEGRAMS.

### HARRY THAW'S ESCAPE.

#### EVIDENCE OF COLLUSION.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 19.

Harry Thaw's mother has received a letter from her son implying that he is going to take the rest cure at the Thaw family's country seat in Pennsylvania. Thaw evidently regards himself as safe outside the New York State, as the difficulty of extraditing a more lunatic is enhanced by the Glynn-Fulzer imbroglio, both claiming the right to investigate the affair and arrange for his recapture.

There is growing evidence of collusion in Thaw's escape. It appears that the gatekeeper, whom Thaw overpowered, allowed ten minutes to elapse before informing the Asylum authorities, who found the telephone wires cut when they wanted to raise the alarm.

#### Arrested.

London, Received Aug. 20.  
Reuter's New York correspondent states that a telegram from Coastinook, Quebec, says Thaw has been arrested there at the request of the United States Sheriff.

heavy loss, but met with a severe check in Italian territory at Frego, on October 6th. The Mullah, however, retired as the result of this action still further into Italian territory, to Geladi.

Five months later a third expedition, co-operating with the Abyssinian Army under Brevet Lieut.-Colonel (local Brigadier-General) W. H. Manning, Inspector K. A. Rifles, comprising British and Bosn. M.I., Indian and African troops, with the main base at Obbia in Italian Somaliland, proceeded to Mudug, thence detaching a force under Lieut.-Colonel Cobbe, V. C., to Geladi, which place was up till then the headquarters of the enemy. A force of 200 Yaos and Sikhs, under the late Lieut.-Colonel Plunkett, was overwhelmed at Gumburra, in April, 1903, after a fight of the fiercest description. A column of 200 men under Major Gough, being at the same time attacked at Daratoleh, whence it retired fighting to Bibo-tleh, and in June the expedition fell back on the Berbera-Bobot-loh lines of communication, when Lieut.-General Sir C. O. Egerton, K.O.B., was placed in command.

Reinforcements, increasing the force to 7,000 rifles, were despatched and placed in the field, and in January, 1904, 3,250 troops defeated 5,000 dervishes at Jidballi, about 1,000 of the latter being killed. In March, 1905, an agreement was concluded between the Italian Government and the Mullah Seyyid Mohammed, whereby peace was declared between the dervishes and the neighbouring tribes, both those subject to the Government of Italy and those under the protection of the British Government. The Mullah was given a port on the east coast and was assigned certain territories within the Italian sphere of interest, beyond which he and his dervishes undertook not to encroach.

In the latter part of 1908, some unrest was caused by the unfriendly attitude of the Mullah, and reinforcements were brought into the Protectorate from East Africa, Uganda, Nyasaland and India during 1909.

Arrangements having been made by arming and organising the British protected tribes, to enable them to defend themselves against attack, H.M. Government withdrew all reinforcements from the interior in March, 1910, and administration is now limited to the coast belt, as it was prior to 1901.

## TELEGRAMS.

### THE AUSTRIAN EMPEROR

#### HIS EFFORTS FOR PEACE.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 19.

The Kaiser, toasting the Emperor Francis Joseph, at a banquet in honour of the Austrian Monarch's birthday, at Hamburg, said: "We have to thank in no small measure the Emperor Francis Joseph for the preservation of peace in Europe during the Balkan war. As the faithful ally of Austria-Hungary, this gives us particular cause for rejoicing, and we look hopefully to the future because, the might and activity of our old and tried alliance, uniting Germany and Austria-Hungary, will be preserved for the peace of the world."

#### The Heir Apparent.

London, Received Aug. 20.  
Reuter's correspondent at Vienna states that the Emperor, on the occasion of his birthday, has appointed Prince Franz Ferdinand and Inspector General of the entire armed forces of the country.

## PIONEER SCOTSMAN'S DEATH.

### BIG BEQUESTS BY SUPPOSED INDIGENT.

London, Received Aug. 20.  
Reuter's correspondent at Melbourne states that the pioneer Scotsman, William Robbie, a nonagenarian, who was supposed to be indigent, has died at Ballarat, bequeathing £30,000 to Aberdeen University. His relatives, none of whom are in Australia, receive £850, and Ballarat Hospital £50.

## "CHINESE CHARACTERISTICS."

A writer in the "Manchester Guardian," in the course of an article on "China of to-day," observes:

"The Chinese are along among nations of the earth in detesting violence and cultivating reason. Their instinct is always to compromise and save everybody's face. And this is the main reason why Westerners despise them. The Chinese, they aver, have 'no guts.' And when hard pressed as to the policy of the Western Powers in China they will often quite frankly confess that they consider the West has benefited China by teaching her the use of force. That this should be the main contribution of Christians to the ironies of history. But it is part of the greater irony which gave the Christian faith to precisely those nations of whose fundamental instincts and convictions were and are in the most radical antagonism to its teaching."

Though, however, it is broadly true that the Chinese have relied on reason and justice in a way and to a degree which is inconceivable in the West, they have not been without their share of original sin. Violence, anarchy, and corruption have played a part in their history, though a less part than in the history of most countries. And these forces have been specially evident in that department to which Westerners are apt to pay the greatest attention—in the department of governments. Government has always been less important in China than in Western States; it has always been rudimentary in its organization; and for centuries it has been incompetent and corrupt. Of this corruption Westerners, it is true, make more than they fairly should. China is no more corrupt (to say the least)

## TELEGRAMS.

### BIG SHIPPING DISASTER.

#### OVER 50 PEOPLE DROWNED.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 20.

A message from Juneau (a mining settlement on the shore of the Alaska strip) states that the steamer State of Californian, while going at full speed, struck an uncharted rock in Gambier Bay and sank in three minutes.

The passengers were asleep at the time, and twenty-five or more were drowned, as also were twenty-seven of the crew.

The cargo and mails were lost. The vessel is valued at half a million dollars.

The Captain and forty others escaped on rafts.

[The State of Californian was a vessel of 2,200 tons and was owned by the Pacific Coast S. S. Co. She was built in 1878.]

## THE NAVY OVERSEAS.

### AUSTRALIAN SHIPS IN AFRICA

London, Received Aug. 20.  
Reuter's correspondent at Capetown states that the Australian warships Australia and Sydney have arrived at Capetown, where a week's programme of festivities has been arranged.

than the United States or Italy or France, or than England was in eighteenth century. And much that is called corruption is recognised and established the "squeeze," necessary, and understood to be necessary, to supplement the inadequate salaries of officials. A Chinese official is corrupt much as Lord Chancellor Bacon was corrupt; and whether the Chancellor ought properly to be called corrupt is still matter of controversy. Moreover, the people have always had their remedy. When the recognised "squeeze" is exceeded, they protest by riot. So that the Chinese system, in the most unfavourable view, may be described as corruption tempered by anarchy.

And this system, it is admitted, still prevails after the Revolution. Clearly indeed it cannot be exterminated until officials are properly paid; and China is not in a position to pay for any reform while the Powers are drawing away an enormous percentage of her resources by that particular form of robbery called by diplomats "indemnity." The new officials, then, are "corrupt" as the old ones were; and they are something more. They are Jacobins. Educated abroad, they are as full of ideas as was Robespierre or St. Just, and their ideas are even more divorced from sentiment, tradition, and human feeling. A foreign education seems to make a cut right across a Chinaman's life. He returns with a new head; and this head never gets into normal relations with his heart. That, I believe, is the essence of Jacobinism: ideas working with enormous rapidity and freedom unchecked by the fly-wheel of traditional feelings.

A "Bull Roarer."  
How many people know what is meant by a "bull roarer"? One of these curious instruments was offered for sale in a London auction-room recently. It is used in certain parts of Africa to notify women and children to leave a particular village when a Kiva dance is about to come on. It is attached to a string at the end of a stick, and as it is whirled round it gives forth a dull roaring sound.

## OPIMUM POSSESSION.

At the Police Court, this morning, a Chinese was fined \$325 for being in possession of opium, by Mr. Hazeland.

## TELEGRAMS.

### A STREET EXPLOSION.

#### OVER 100 PEOPLE KILLED.

Reuter's  
[Service to the "Telegraph."]  
London, Received Aug. 20.

Reuter's correspondent at Mexico City states that a dynamite truck exploded in a street in the suburb of Tacubaya and over 100 people were killed, mostly women and children.

## EDUCATION IN GERMANY AND UNITED STATES.

"The average man of the people in America is much more interested in the affairs of the public school than the average man in Germany," declares Dr. Georg Kerschensteiner, a well-known German educator, in "A Comparison of Public Education in Germany and the United States," just issued by the Bureau of Education. "In the daily press reports and discussion on educational topics occupy a space which to my observation is fully ten times that which German newspapers devote to the subject."

Direct election of school-board members by the citizens, as found in the United States, impressed Dr. Kerschensteiner very favourably. He notes that in Germany the citizens have little or nothing to say about their school system. "In Germany the local school boards are nowhere chosen by popular vote," he declares. He thinks the American plan might be a very good thing for his own country, particularly as a means of arousing genuine public interest in education.

The American high school comes in for some interesting comment by Dr. Kerschensteiner, both complimentary and otherwise. He praises the high school's democratic spirit, its aim to educate all the people; but he misses the thoroughness that characterizes the work of the German gymnasium.

In both nations the schools are now in a period of great development, according to the Munich educator. "The great advantage that Germany possesses," he declares, "in addition to the relentless thoroughness of the whole educational work, is the well-regulated organization of a State provided school system, which requires in each community a school as good as that in every other community. But this advantage has been purchased at the expense of many qualities for which we must envy the American schools."

## SUICIDE TO CURE LOVE.

Suicide as a cure for hopeless love is a common expedient in Japan. "There are Japanese lovers," writes Mr. Hadland Davis, "who, owing to circumstances, are unable to marry; but they do not blame circumstance. They regard their misfortune as the result of an error in a previous existence, such as breaking their promise to wed, or because they were cruel to each other. Such lovers believe that if they bind themselves together with an undergirdle and spring into a river or lake, they will become united in their next birth. This suicide of Japanese lovers is called 'joshi,' which means 'lovedeath' or 'passion death.'"

## AT THE POLICE COURT.

Daily Press

### Chinese Affairs.

One prejudice which has made  
itself unpleasantly felt since the  
outbreak of the rebellion has dis-  
appeared by the compliance of  
the Kuomintang with the  
Government's order as stated,  
and the readiness with which this  
was done suggests that other  
differences might be overcome  
with a view to securing a working  
arrangement which, while giving  
liberty of thought, would prove  
of immense value in settling pre-  
sent troubles and would tend to  
that consolidation of China which  
must be desired by all true  
patriots and by real friends of  
China. It is not necessary to  
indicate the exact form which the  
modus vivendi should take. It  
is enough to suggest that the spirit  
of reasonableness, just manifested  
on the part of the Government and  
of the Kuomintang, should be  
fostered. It may be too much to  
expect that cordial relations can  
be established at once between  
two, but it is not beyond the  
bounds of possibility for an under-  
standing to be arranged, paving  
the way for more practical meth-  
ods in carrying the Constitution  
into effect. Both the Government  
and the Opposition should seek  
points of agreement rather than  
points of difference, and in that  
way the good which is common  
to both may find an outlet and be  
expressed in legislative enact-  
ments and administrative efforts  
making for the well-being of the  
people and the maintenance of  
order and good government.

South China Morning Post.

### San Francisco's Dis-

appointment.

So far about eight countries  
have declined to take part in San  
Francisco's projected Exhibition  
to inaugurate the opening of the  
Panama Canal. Many others have  
not yet signified their intention  
either way. Great Britain's ad-  
vanced reasons of economy for  
declining the invitation of the  
promoters of the fair, also the  
apathy of commercial circles.  
Germany has come out with a  
similar excuse, namely "a general  
weariness of exhibitions," adding  
however, that the inauguration  
of the Canal will probably afford  
a fitting opportunity of showing  
the interest of Germany in "a  
mighty achievement for which  
the whole world is indebted to  
the United States." Opportunity  
has been taken in Japan to make  
political capital out of what must  
be an extreme disappointment to  
the American people and Golden  
State of California in particular.  
Japan, however, has herself voted  
the money for participation, a fact  
which is not easily reconcilable  
satisfaction of many Japanese,  
who describe the action of Great  
Britain, Germany, Russia and  
other countries as a "boycott" of  
the Panama Exhibition.

China Mail.

The Panama Canal.  
The discharge provided by it is  
equivalent to 154,000 cub. ft.  
seconds, which is greater than the  
known requirements over any  
considerable period. Should ex-  
treme circumstances arise, and a  
greater run-off become necessary,  
the longitudinal culverts in the  
lock structures at Gatun and Pedro  
Miguel could also be utilised, and  
an additional discharge of about  
40,000 cub. ft. seconds thus  
secured, making a total of 194,000  
cub. ft. seconds, which is greater,  
according to official records, than  
any measured momentary flood at  
site. To arrange for this discharge  
capacity, and at the same time to  
keep the structure of reasonable  
dimensions, a regulating weir  
having a total crest length of 630  
ft. has been employed, with gates,  
giving maximum openings 22.5  
ft. wide, fourteen in number. The  
trace of the crest is a circular arc,  
thus obtaining the required length  
of weir within a comparatively  
short space, making also a compact  
structure, for which a suitable site  
was procurable at a small hill on  
the line of the Gatun Dam.

ALEXANDRA CAFE.

## GENERAL NEWS.

## Crimes Passionnels.

Maitre Henri Robert, who has been elected "Batonnier," or official leader of the Paris Bar, in succession to Maitre Labori, of Dreyfus case fame, is the most brilliant French pleader in criminal cases. It is said, in fact, that with him as advocate no person on trial for a "crime passionnel" need fear the verdict. A few months ago, at the Universite des Annales, he delivered an interesting address in defence of Lady Macbeth, which was a typical example of his methods in court.

## Soldier and Politician.

Unionism loses a valuable representative by the death of Colonel John Kennedy, Chairman of the Crews Division Constitutional Association. Entering the Army in 1857, Colonel Kennedy exchanged in 1867 into the 5th Dragon Guards, and after his retirement, served for a number of years with the Crews Railway Battalion. Only a few months ago his great services to the Unionist Party were commemorated by the presentation of a life-size portrait of himself from 900 subscribers.

## Vatican and Quirinal.

Quite an interesting problem has been raised by the Pope's purchase of a pine wood outside the Vatican. To reach this property, which he has bought for the purpose of taking exercise, it will be necessary for the Pope to cross a public road, thus violating the 43-year-old tradition that he must not set foot on Italian territory. The construction of an underground passage is proposed as the solution. Even then there is the question whether the "exterritoriality" attached to the Vatican and the Lateran applies to the new property.

## An Unlucky Picture.

Millais' "Sir Isumbras at the Ford," of which Sir W. H. Lever is just announced to have been the purchaser at the McCulloch sale, has undergone several vicissitudes. The horse was painted three times over, being first criticised as too big and then as too small. Finally a rent was made in the canvas right through the head of the knight. One story says this was caused by the artist kicking the picture in disgust, but the real version is apparently that the painting was blown over by a strong wind and hurled against an iron chair.

## SURRENDER OF WOOSUNG FORST.

## Flight of Rebel Officers; A Sudden Collapse.

Writing of the surrender of Woosung Forst, reported at the time by special cables to the "Telegraph," the "N.O. Daily News," special correspondent at Woosung states, under date of August 13:—

At a moment when all were in anticipation of a hard struggle, in which attacks by land and sea were in prospect, the rebel movement in the Woosung district has collapsed. This morning, a blow had been struck, the Forst launched in their surrender, and within a few hours the place which been one of the greatest rebel strongholds was in the hands of the Government troops. The event is the most momentous that has occurred during the weeks the revolt has raged in the vicinity of Shanghai, and it may safely be predicted that the thirteenth of August will be an outstanding date in the history of the present trouble.

To-day practically all the rebel troops have vanished from the Woosung district, those remaining having been kept at their posts solely to guard property. During the night the flight had taken place. The officers left, and the men seem to have melted into space. Proudly had the Forst, but two short weeks ago, boasted of their strength, the cohorts that could be marshalled against the Government army and in the belief that their position was impregnable they flung defiance at their enemies. Not more than two days ago they threw their troops against the Government positions, and no one can deny that they attacked bravely. Yet within a few brief hours their glory had departed, and now they are not. Whithersoever they have fled, they no longer menace the district, and a severe blow has been struck at the revolt.

## The First Sign.

Even until daylight closed on Tuesday there were indications of light on the part of the rebels. As darkness was gathering a few shots were heard about a mile from Woosung, but soon everything was quiet. The railway was guarded and all the usual precautions against surprise were taken. Various influences were, however, at work, and from the yacht Lienching came the first sign of the changing attitude. Earlier on Tuesday some of the crew were believed to have attempted to seize the boat and carry her over to

the Government side, but failing to bring off the project they deserted, leaving but a small crew to man her. Included among the deserters was the only engineer in the rebel camp, and his absence had a distinct effect upon the state of affairs towards midnight.

By this time it seems to have been definitely decided that the Forst must surrender, for now an effort was made to send the Lienching up river to the flagship Huichew. Without the engineer, however, the wavering rebels could do nothing, and in their dilemma they offered a bribe of \$100 to the engineer of the Pootoo, the launch of Dr. Bennett, the Health Officer. This individual refused the work, and unable to obtain any one who could work the engines, the rebels had to abandon the attempt.

## Negotiations.

It was not until 5 a.m. that the outer world knew what was afoot, but as a matter of fact during the night negotiations had been in progress. Dr. Cox had been in communication with General Nyeu Yung-shien, the Sungkiang leader who has had command of the Forst for the past ten days, and acting as an emissary from him he and Mr. C. M. Manners of the Red Cross were able to take to the Huichew an offer of surrender. This was that the soldiers should be allowed to go to their homes and that they should receive a certain sum of money to pay their expenses. Satisfactory progress was being made with the negotiations, but by daylight the situation had again changed.

At 5 a.m. three men from the Forst visited the various foreigners in the Woosung district endeavouring to obtain a steam launch to convey them to the Huichew. They stated that they had been sent by General Nyeu to take the surrender of the Forst to the Admiral. It was impossible for them, to secure the use of a launch, but later in the morning they rowed up river in the gig of the Lienching bearing their message thus.

At this time Dr. Cox had gone off to the Huichew to complete the negotiations which had been inaugurated, but by now the Forst were practically deserted of soldiers, and for that matter the whole district. During the night General Nyeu had gone, and this event has followed by the departure of the other officers, while the men themselves, except those who remained to take charge of the property, had set off into the country, doubt

loss to disperse. At any rate by daylight they were all away with the exception of the few above mentioned, and so silent had their departure been that even the country people could scarcely say whether they had fled.

After recounting other incidents, the writer concludes as follows:—

Coming ashore it was seen that the advance guard of the army was already near at hand, and the naval guard decided to make a bold bid to be first inside. Their boat was pushed on to the Conservancy Jetty, and at the double the men made tracks for the entrance. The advance guard from the army consisted of one of General Li's officers, six marines and two soldiers, with them being Dr. Cox, who had gone out to meet them. The naval guard were confident of being able to outpace their friendly rivals and enter first, but when the parties met a short discussion was held, and it was resolved to divide the honours and march in shoulder by shoulder. The sentries at the gate retired inside on their approach and here formed themselves into a guard of honour, presenting arms to the combined forces.

Thus was the occupation of the Forst accomplished. Within a short time the soldiers from Kiangwan arrived, and soon the place was in complete possession. Very soon gunners from the men-of-war were sent ashore and removed the breach-blocks from the guns, while a large quantity of ammunition was also taken away.

In the afternoon General Li arrived, and at 3.45 p.m. the Huichew steamed up and likewise came to anchor with the other men-of-war opposite the Light-house.

## Decreasing Pauperism.

On Saturday, July 5, there were 98,298 paupers in London, of whom 69,686 were in the workhouses and 28,612 were on the outdoor lists. The total was lower by 6,143 than that for the corresponding day of July, 1912. There was a decrease of 3,506 in the workhouse population and of 2,637, in the number of outdoor paupers.

## SOLIGNUM

Is the best preservative of wood from decay, dry rot and vermin. It is easily applied, has great covering power, and in addition keeps preserving properties makes a most artistic stain on all woodwork, whether inside or out. SOLIGNUM IS DEATH TO THE WHITE ANT.  
MADE IN SEVERAL SHADES OF BROWN, GREEN & RED.  
The wood of the superstructural woodwork of the new 'Sat' is very fine at Hongkong has been treated with 'Solignum'.

SIEMSEN &amp; Co. (Machinery Dept.) Hongkong &amp; Canton.

The s.s. Katori Maru.

The trial trip of the N.Y.K. Katori Maru, constructed by the Mitsubishi Shipbuilding Yard, Nagasaki, was held on July 25. The result was very successful. The highest speed attained was 18.953 knots and the mean speed—six runs—was 18.731 knots. As the contract speed is 18 knots, builders and owners have reason to be pleased with the vessel's performance. Her engines are a combination of Parsons' turbines and reciprocating engines.

Steamer's Trying Experience.

Many steamers coming from Calcutta report having experienced a trying time getting through the cyclone which has been blowing there for the past few days, says the "Times of Ceylon" of July 31. Perhaps the vessel whose experience has been the worst is the Strathgarry,

which put into harbour yesterday evening. Speaking to one of our representatives to-day, Captain Neill said that his experiences were the worst in his recollection, and that he had never had the misfortune to encounter such a heavy monsoon. After leaving Calcutta he had three very bad days, with high winds and mountainous seas, during which he "did not see his deck," which were continually awash. During this very trying period one of the lifeboats was damaged, while the progress the vessel made was only between two and three knots. The weather moderated somewhat after this, but strong South-West winds were experienced right down to the Basses, from where there was a strong westerly wind up to Colombo. The Strathgarry averaged six knots for the voyage, although capable of 91. She has brought a cargo of coal for Messrs. Delmege, Ried and Co.

## LIBEL ON BANKER.

Professor's Secret Process for Making Flax.

"I plead guilty, and apologise," said Rudolph Blitz, sixty-one, professor of chemistry, when charged at the Old Bailey with publishing libels concerning Bertram Abel Smith. The libels were contained in a circular sent to Sir Edward Holden, chairman of the London City and Midland Bank and to Sir Felix Schuster, Governor of the Union of London and Smith Bank.

Mr. Foote, K.C., said Mr. Bertram Smith was a director of the Union of London and Smiths Bank. The prisoner, a foreigner, had failed in an action he brought against a company of which Mr. Smith was a director, and afterwards he sent from Nice to men in London circulars which announced that he (Blitz) would lecture on "Sharkism," on the basis of some antithetical documents now in the possession of the lecturer, and deriving from a band of City sharks organised under the leadership of a certain Bertram Abel Smith, a director of the Union of London and Smiths Bank in London.

Counsel added that Mr. Smith did not desire to be vindictive. Blitz had signed the following undertaking:—"I acknowledge that the attacks made by me on Mr. Bertram Abel Smith's character and honesty are without foundation. I withdraw and apologise for any charges I have made, and undertake not to repeat them."

Mr. Justice Fulton, for the defendant, said Prof. Blitz was a very distinguished scientific chemist, who had discovered a method of making flax out of straw. To try to put the invention on commercial basis he was provided with a laboratory, but after working for some months he formed the opinion, rightly or wrongly, that those working with him had acquired the secret of his process. He was dismissed from his position at a moment's notice, and he concluded that those who had obtained the substance of his invention were using it for their own purposes.

Counsel said he did not suggest that Mr. Smith was a party to or had any knowledge of what was done. The defendant afterwards started a very ill-considered action, as a result of which he became bankrupt.

In binding the defendant over to come up for judgment if called on, Judge Rowlatt said Mr. Smith had acted very generously in the matter.

## WIFE'S DRESS BILL.

Husband not Liable for Extravagances.

Judge Woodfall decided in Westminster Court that a husband was not liable for a wife's extravagances or for bills run up in order to spite him.

Messrs. Jays, of Regent-street, and Mr. Harris Brown, of the Hadley Brewery, Barnet, for £23 for dresses, etc., supplied to his wife. Mr. Brown paid £25 into court and maintained that that was in excess of the value of the articles that could be regarded as necessities.

Counsel for Mr. Brown said that latterly there had been ill-feeling between husband and wife, and up to shortly before the present action was brought the wife had run up bills amounting to about £200, and she had stated that she did so in order to pay her husband out.

In cross-examination Mr. Brown said he had regarded his wife as an attractive woman, and he naturally had taken a pride in her appearance. He considered, however, that she had given order for a large number of articles that were quite unnecessary. She ordered things in which to go to Ascot, and on one occasion she went to Nice, and he had to send a nephew to bring her back. That journey cost him nearly £100.

Mr. Westbury Preston, the defendant's solicitor, said that when spoke to Mrs. Brown about extravagances she said she had run up debts deliberately because she believed her husband was spending money on other women. She admitted that she had enough

clothing to last her for several years.

Counsel for the plaintiffs said Mr. Brown had allowed his wife to run up bills to £240 and £260 for dresses, £200 for fables, etc. Why, therefore, should Jays be singled out as the one firm not entitled to payment?

Judge Woodfall said the wife had been amply supplied with clothes. He could not regard all the articles supplied by the plaintiffs as necessities for the lady having regard to her station in life, and there would be judgment for the defendant.

## "THE OLD STOCK"

The American Ambassador, responding to the toast of his health, at the Anglo-Saxon Club last month said he was asked almost every day by the kindly people whom he met—and he could not too strongly emphasize the word "kindly" since he had come to England—how they were getting on in the United States assimilating the endless hordes of people from all lands who came to their shores. He did not wish to boast. He was a humble man from the humblest of countries. (Laughter.) But he was delighted to assure them that the Anglo-Saxon, or British, race, who settled the United States first, shaped its destinies, directed its energies, according to their conscience, against their own Motherland, and developed themselves and the great territory which they subdued, to this day, no matter how many men came from how many lands, still ruled it and led it. (Cheers.) And there was no time in sight when that would have changed. Every President of the United States had been of English or Scottish blood dominantly. Out of 121 mayors of cities only 11 per cent. had names which showed that they or their predecessors came from countries other than the United Kingdom. Only 14 per cent. of the representative men who took part in the government of the United States in the House of Representatives or the Senate bore foreign names, which left 86 per cent. who came from the United Kingdom. The Anglo-Saxon was quite as much the leader of men in the great Republic as he was in the great United Kingdom. That was not a boast; it was a natural phenomenon. It was destiny, and they could not help it if they would. Americans deserved no particular praise for it. They believed, just as Englishmen believed, that they were born to rule the world.

Alluding to questions of health, he said that by the beneficence of an American citizen there had been set aside 100 millions of dollars, the interest on which for some time was to be spent on international health work wherever the disease of anemia existed. That afforded a most pleasing prospect for the salvation of anemic lands. When the disease was eliminated they would have a different man to deal with in India, China, Japan, Central America, the West Indies, and the Philippines—and when that time came the leadership of the world would not be so easy. (Cheers.)

## EXIT BRITISH RADIUM.

A question of far-reaching and profound importance is raised by the announcement that Germany has purchased for her hospitals and medical institutions every available milligram of British radium. At present there are two available sources of supply worth speaking of in the world—our own at Cornwall and the pitchblende mines held by the Austrian Government. So far as Austria goes, she prohibits absolutely the exportation of the precious stuff, which now fetches £240,000 per oz. Should we do likewise? The question arises because the result of the raid upon British radium is that British hospitals will have to wait many months before they can hope to give their patients the wonderful curative treatment now being exploited abroad. This, it will be admitted, is paradoxical to the point of absurdity.

PRESIDENTIAL  
MANDATES.

## The Allegiance of Kuangtung.

The following mandates were issued on August 6, by order of the Provisional President:—

(1) On account of his having disloyally revolted against the Government, an order has been issued, cashiering the rank and office of Chan Kwing-ming and authorizing his arrest or punishment, and Lung Tai-kuang is appointed Tutuh of Kuangtung. Telegraphic reports successively received from Lung Tai-kuang state that he has reached Shui-hing, and he is directing his forces to enter Canton by different routes. Again, various bodies and classes in Kuangtung have telegraphed in succession, reporting that the army of Kuangtung, in a body, are opposing the revolt. Division Commander-in-Chief Chung Ting-chi has resigned and left his command (in protest). The Artillery Corps was the foremost in rising to reject Chan Kwing-ming who has escaped in secret and cannot be traced. Su Shun-ch'o is maintaining order, and peace and quiet are being gradually restored. A telegram from Su Shun-ch'o dated August 4 reports that Kuangtung cancelled its "independence" on date, Chan Kwing-ming has gone away, Chung-chi has resigned, and, for the sake of preserving local order and peace, he is strenuously upholding the present condition, etc.

Ever since the revolution, the people of Kuangtung have been suffering hardships. Such persons as Hu Han-min and Chan Kwing-ming, shielding themselves under the good pretext of republicanism, have acted the very cruel and tyrannical parts of despots. The merchants and people of the Kuangtung province who came to Peking to complain of their grievances, often wept during their narrative before us. Hu Han-min and Chan Kwing-ming were repeatedly enjoined to show more consideration to the people in order to heal their wounds, but they disobeyed us and felt no repentance.

Unexpectedly, Chan Kwing-ming sided with the rebels in their present rising, and even raised a standard to resist our authority, thereby necessitating military activity and throwing our subjects into deep water and fierce flame. I, the President, have known full well the loyalty of the soldiers and people of the side province, and I am confident that they would never willingly obey or follow rebels. The Ministry of War has been commanded to instruct the division and sub-division commanders to publish his crimes and to punish him, so that the said rebel may not occupy the Kuangtung province and harm the merchants and people.

From the report submitted by telegraph by Su Shun-ch'o, it is apparent that he remained loyal and resisted the rebellion. His action is much appreciated. Su Shun-ch'o, having bravely done his duty and shown indomitable courage, has rendered a signal service to the Republic in extinguishing the rebellious element. He is hereby endowed with the brevet rank of Field-Marshal and given the 3rd Order of Merit. Chang Wo-ch'uan is appointed Commander-in-Chief of the 1st Army Corps; and a reward of \$100,000 is bestowed upon the soldiers. Lung Tai-kuang is ordered to inquire as to other commanders and officers who have rendered assistance, and submit a request for their reward, on liberal scale. He shall also make investigations with regard to those officials, civil and military, who have abetted the rebels, and deal with them severely according to martial law. Chung Ting-chi, unwilling to obey the re-

bellious, requested leave to resign office; he shall wait for another appointment and promotion, as an encouragement to others to distinguish between right and wrong (i.e. between Government and rebellion). The people of Kuangtung, having been trampled upon repeatedly, need attention; and Lung Tai-kuang is to devise means for their speedy relief.

**Dissolution of Kiangsi Assembly.**  
(2) The provincial assembly is the representative body of the people, and its every action should be based strictly upon the law and the desire of the people. The Kiangsi Provincial Assembly circulated a telegram on July 14, announcing its unlawful election of the Tenth and a declaration that it had severed connection with the Central Government. This was glaringly an act in contravention of popular opinion and destructive of the union (of the nation). No law can protect such rebellious conduct. In pursuance of the right of administrative power is provided in the Statute, I the President, hereby hold Pacificator, Tuan Chi-kuei and Military Commissioner Li Shun responsible for ordering its dissolution. As soon as military activity is relaxed somewhat, another election in accordance with the law shall be held, in order to meet the wishes of the people. With respect to any of those provinces, within which there are military operations, the Provincial Assembly of that province shall be ordered to suspend its session, if still sitting temporarily, at the discretion of the superior administrative official, or commander-in-chief.

SORE THROAT:  
Its Cause and Cure.

Few ailments are more painful and annoying than Sore Throat, which is so prevalent just now.

This complaint always means that the sufferer has inhaled germs, particles of vegetable life so extremely minute that, when seen through the microscope, they look like little specks, as shown in the above slide.

The quickest and most thorough way of killing these germs is to suck a few Formant Tablets. The pain and swelling rapidly diminish, the mouth and throat feel thoroughly clean and refreshed, and in a short time the Sore Throat is cured.

Formant is just as effective, too, as a preventive of Sore Throat and of much more dangerous epidemic diseases like Diphtheria, Consumption of the Lungs, Scarlet Fever, and Measles.

**Praised by 7,000 Physicians.**  
Wulfin's Formant Tablets are held in the highest esteem by medical men. For instance, a physician writes in "The Practitioner": "I have never had Sore Throat myself since I began to use Formant, although I suffered periodically before."

Formant is habitually used by well-known people like the Right Hon. Arthur J. Balfour, M.P., Lord Justice Buckley, and Sir Gilbert Parker, M.P. To take only a few examples, Lord Glanville writes: "I have been using Formant for Sore Throat with most satisfactory results." Signor Canino, the world-famous tenor, writes: "I have found Wulfin's Formant Tablets very beneficial to the throat and pleasant to the taste." The Bishop of Bath and Wells writes: "Wulfin's Formant is a remedy and preventive, the value of which is appreciated in this house."

Such eminent people would not allow their names to be published if they had not proved the efficacy of Formant. Their names are a guarantee that it would be worth your while to try Formant, which can be obtained of all Chemists, and to send this coupon for a Free Copy of a valuable Handbook on Sore Throat, Diphtheria, etc., written by a London physician.

Only a limited number of copies are available for free distribution, and there is sure to be a quick demand for these. Post this coupon, at once, and thus make sure of securing your copy. Wulfin's Formant can be obtained of all Chemists, in bottles containing 50 tablets. Inset on the genuine Formant, and refuse worthless and harmful substitutes.

**FREE HANDBOOK.**  
Please send me a Free Copy of "Hints on Sore Throat."

REVOLUTIONARY  
PROPAGANDA IN JAVA.

Much excitement has been caused during the week by the wholesale arrests of native Editors, which took place at Bandung on the 1st instant. An inflammatory publication entitled, *Alsik Nederland Was* (if I were a Dutchman) was the origin of the drastic measures which the Government has seen fit to adopt. Bandung has for a long time past been the seat of revolutionary labours, and its paper *De Express* was started by subscription raised by Doves Dekker and his party, who have as their motto, "India for the Indians."

On the 1st the Police proceeded in four patrols escorted by infantrymen to the office of the *Express*, where they arrested:—

Doctor Tjiplo, Mangonoeswemo, Editor of the *Express*;  
A. H. Wigna, Editor of the *Kaom Moeda*;  
Abdul Moesli, Editor of the *Hinda Sarikat*;  
Soewardi Soerjadi, Manager, and others.

They were charged with publishing and issuing the *Alsik Nederland Was* pamphlet with an idea of raising insurrection. They were taken by a strong escort and placed in goal.

Later news from Bandung says that the whole of the Native Committee have been arrested. The police are moving slowly round the town and arresting all whom they consider have anything whatever to do with the movement. The whole of those arrested are being carefully examined by the Resident, who released two of the prisoners on Thursday.

Bandung has been paralysed by the Government's action in the matter.

According to the *Batavia Nieuwsblad*, Doves Dekker, the leader of the movement, was arrested at Batavia last Monday while returning from Holland.

Insurrections seem to crop up nearly everywhere. That in the island of Pulau Pantar, which is situated to the east of Flores, has resulted in one European Sergeant being killed and Captain and Adjutant J.K.F. Weber and several others being wounded. The garrison of the island has been reinforced by three infantry patrols.—*Cor. of "Malay Mail."*

## Vessels Registered in Japan.

The latest official returns give the number of steam vessels registered in Japan at the end of June 1913 as 2,036 with 1,470,077 gross tonnage and 933,714 registered tonnage. Those having a displacement of more than 1,000 tons number 400, their gross tonnage aggregating 1,216,635 and registered tonnage 731,894. The number of sailing vessels of more than 100 tons capacity is returned as 6,868, with the gross tonnage of 466,314, and registered tonnage 431,086. There were also 1,539 Japanese style vessels, whose capacity is calculated by koku, aggregating 527,094 koku.

## Official Trials Completed.

The Dumbarton-built twin-screw steamer *Paris*, which is fitted with geared turbines, has completed her official trials. The conditions were one run each way on actual route of service (New-haven and Dieppe) with a mean speed of 24 knots. The vessel crossed to Dieppe at a speed, as certified by the officers of the State Railway of France and the London, Brighton and South Coast Railway, of 25.07 knots, and the return journey was made in the teeth of a strong north-west breeze and rough sea at a speed of 24.4 knots. The vessel's manoeuvring powers were admired, and the steadiness and the freedom from vibration were remarkable.—"Shipping and Engineering."

## The London Library Catalogue.

This great undertaking, the printing of which began in February last, is nearing completion, and the first volume, which extends from A to K and consists of 1,400 double column pages, has been passed for press. It is expected that it will be issued to members and subscribers in September. It includes all books received up to the time each sheet was passed for press. The second and concluding volume will be ready early next year.

### NOTICE TO SUBSCRIBERS.

The rates of Subscription to the "Hongkong Telegraph" will be as follows:—  
Daily issue—\$36 per annum.  
Weekly issue—\$13 per annum.  
The rates per quarter and per month, proportional. Subscriptions for any period less than one month will be charged as for a full month.  
The daily issue is delivered free when the address is accessible to messenger. Peak subscribers can have their copies delivered at their residences without any extra charge. On copies sent by post an additional \$1.80 per quarter is charged for postage.  
The postage on the weekly issue to any part of the world is \$1.00 per quarter.  
Single Copies, Daily, ten cents. Weekly, twenty-five cents (for cash only).  
Advertisements and Subscriptions which are not ordered for a fixed period will be continued until countermanded.  
(Payable in Advance.)  
By Order, "HONGKONG TELEGRAPH."

## The Hongkong Telegraph.

HONGKONG, WEDNESDAY, AUGUST 20, 1913.

### SAFEGUARDING THE NAVAL SERVICE.

We notice from a Washington advice that America has found it necessary to take in hand a problem which is also troubling naval circles in Great Britain—the frequent resignations of officers in the construction department of the Navy. In recent years an alarming number of expert officials have been voluntarily resigning both from the American and British naval services because of the large salaries offered them from concerns to whom their technical knowledge, and especially their knowledge of naval practice, and even of naval secrets, would be extremely valuable. In the case of the United States it is pointed out that the list of naval constructors who have resigned from the service during the last ten years or more is a decidedly notable one in point of professional qualifications, and it is quite significant that in the majority of instances these officers have gone to firms which were building, or have since built, vessels under contract for the Government.

This all-important matter has not yet received the attention it should do in Britain, but we observe that in America the Secretary of the Navy Department has given it out that he will in future discontinue these voluntary resignations, which are in a measure crippling an important branch of the service. The action to be taken towards this end is that officers who have had the benefit of Government education at the Naval College at Annapolis shall remain in the service until they have attained at least command rank. In other words, the Secretary will not consent to voluntary retirement of officers of the grade of lieutenant-commanders or below. Here it may be mentioned that no fewer than fifteen lieutenant-commanders recently applied for retirement, but the applications were refused and the decision of the Naval Secretary, quoted above, was then made known. It would appear that the Secretary's stand is justified by a considerable number of cases in which men, just as they had reached a point of great usefulness to the Government, were enticed away by offers of alluring salaries from private firms. It is not stated, or even insinuated, that any of the men who have thus retired have made any improper use of their familiarity with Government operations; but the possibility of such use is undoubtedly a factor in the decision of the Secretary of the Navy to discourage the "kidnapping" of brilliant naval officers by corporations which are doing, or may do, business with the Government. Hence it is decided that men who have obtained thorough technical and professional training at the expense of the Government shall remain in the service until they have "worked out their cost," so to speak.

It is quite obvious that it is a great advantage to a firm bidding, or likely to bid, on Government work to have in its offices men familiar with every detail of Government practice and specification, to say nothing of the value to its interests generally of such men. In the case of Great Britain the remedy is not so easily found as in America, where the pay of the officers concerned is a much higher scale; and few can blame men who get a relatively low salary in Government service if they accept much better paid positions with leading firms interested in naval construction. The leakage has in the past been serious in both countries. America is solving the problem of distinctly hard and fast lines. British men, too, face it, though we imagine the question will have to yield to other treatment in her case.

### Christian Officials in China.

There is a good deal of agitation in Canton just now as to who will succeed Mr. Chung, the late Commissioner of Education for the Province. For the time being, Mr. Chan Kwei-nin has been appointed acting Commissioner. There is said to be considerable objection in Government circles to the appointment of officials who are Christians; largely on account of the fact that among ex-Taiwan Chan Kwing-ming's closest friends and counsellors were several Anglicised or Americanised Chinese. It is to be hoped that missionary enthusiasm will not take it that the new Tutch is necessarily opposed to Christianity itself; though doubtless that is the story it will go round. Of course there are exceptional cases, but one can sympathise with the old-fashioned Chinese who regard with some suspicion those who hold the newer views.

### Whose Clock Is It?

We are sorry to see that, by instructions of the Director of Public Works, the old timepiece which has for so many years done duty in the Clock Tower is to be offered for sale by public auction on Saturday. In the first place, it may be asked, whether the Government has a right to dispose in this way of a clock which was presented by a private individual to the Colony. It is, we imagine, the Colony's clock, not the Government's. The original cost of the timepiece must have been very considerable, and although it has now been going for very many years, we understand that it is still in excellent working order.

### Keep it for the Colony.

It would, however, be quite useless to any private individual, and at auction would only fetch a few dollars. The probabilities are that it would be purchased by some Chinese dealer or other, by whom it would most likely be broken up for the scrap metal that is in it. Cannot the old timepiece be permanently preserved to the Colony? It might easily be found a place at the new Kowloon railway station, or the Government might hand it over to the custody of the Jockey Club, who could find space for it at the Racecourse, where a public clock is badly needed. Used in either of these ways, it would serve the public, which is what the donor intended it should do. We therefore hope that the proposed auction will be cancelled. Surely the Government is not so hard up for funds that it needs to part with this old friend of the Colony for the few dollars which it would be likely to fetch at auction.

### Tired of Riches.

Just three years ago a young millionaire of New York, named John O'Brien mysteriously disappeared. His friends, after an unavailing search for him, gave him up as lost or dead. He has now been discovered working as an assistant engine driver on the Missouri-Pacific Railway and has explained why he disappeared. He was tired of being a rich man, "with nothing to do but play the society game and discover new ways to kill time. I have a job, and when I convince myself that I have 'made good' in the world, I will return home home." No doubt Mr. O'Brien will get credit for being true to himself and his better nature, but it seems to us that he has deliberately shirked his responsibilities. He helps to drive an engine, not for his own pleasure, but because that is a useful work. Equally he could handle his millions, not alone for his own pleasure, but usefully and for the public good. The second is the greater work of the two. It is the prerogative of youth however to neglect the work that lies to hand and to sigh after another.

### DAY BY DAY.

A man's reach should exceed his grasp.  
Or what's a heaven for?  
Browning.

### The Mails.

German Mail.—Arrived per a.s. Lueltow this morning.  
Siberian Mail.—Closes per a.s. Lueltow at 5 p.m. to-day.  
Canadian and American Mails.—Due per a.s. Empress of Japan at 6 p.m. to-day.  
German Mail.—Closes per a.s. Princess Alice at 9 a.m. to-morrow.

Appointed to Hongkong.  
Lieut.-Colonel J. O'Hara, A.P. O., from Command Pay Office, Dublin, has been appointed to Hongkong as Command Paymaster, and to embark on September 27.

Interim Dividend.  
An interim dividend of \$1 per share for the six months ending June 30 will be payable to shareholders of the Hongkong Rope Manufacturing Co., Ltd., on the 28th inst.

Proposed Wiltshire Dinner.  
Steps are being taken to arrange for a dinner among the men of Wiltshire in the Colony. Any "menstrators" who feel interested are requested to communicate with Mr. G. H. May of Messrs. Kelly and Walsh.

Said to be Wanted.  
At the Police Court Chief Detective Inspector Collett asked for a week's remand in the case of a man named Chan Wing Tai alias Mai Lo Bing, who, it was stated, was wanted in Indo-China in connection with murder. The remand was granted.

Forthcoming Concert.  
In connection with the Diocesan Girls' School a concert is being arranged to take place on September 6, at the Theatre Royal. Many well-known local amateurs are taking part and the programme will include some novel and artistic "stunts".

The Victoria Theatre.  
Last night's items at the Victoria Theatre were indeed well selected but owing to the moonlight bathing at Quarry Bay the attendance was not great. Those who have not seen the thrilling American drama "The Sewer" would do well to call to-night, as it is a film well worth seeing. The comic pictures given were also very amusing. Next week there will be a gala night for the benefit of the popular Mr. Madariaga who is severing his connection with the theatre.

Captain Hunt Retires.  
Captain George P. E. Hunt, who has voluntarily gone upon the retired list, as a lieutenant of the Forte commanded a 4.7 in. gun contingent with the Natal Naval Brigade, and was referred to in despatches as a "good man in a tight place." For his services on this occasion he received the D.S.O. He is one of the only three supplementary officers, entered from the Royal Naval Reserve, who have reached post rank. His last command was the scout cruiser Newcastle on the China Station.

Moonlight Bathing.  
The third moonlight bathing fixture of the season was held last evening at North Point and was quite as well attended as the two that have been previously held. Bathing was in full swing and the tents were kept well occupied while a large number of people sat out on the beach or promenaded the road above, listening to the excellent programme of music that was discoursed by the band of the 25th Punjab, who attended by kind permission of Major Robinson and officers. The number of pot-pourris dealt with by the tramway was well over a thousand.

### HONGKONG FOOTBALL ASSOCIATION.

Mr. R. Hancock presided over a meeting held last night in connection with the formation of the new football association, and which was attended by representatives of the local clubs.  
Mr. Fager read over the proposed rules, which were on identical lines with the Football Association at Home, and they were interestingly discussed.

### LAWN TENNIS.

Modern Developments of the Game.  
[Special Article].

In Hongkong, lawn tennis is decidedly a democratic game. Everybody plays it. Those who have had the good or ill luck to be born out East, take in the habit almost with their mother's milk; many others who are merely exiles in the Colony have become attracted to the fascinations of the game since their arrival here. And of these latter, it would be found that a surprisingly large number are men well on in life, showing that it is a sport which can be indulged in by all and sunlry with manifest benefit. It may be doubtful, in fact, if there is any game which can compare with lawn tennis for keeping one "fit." Here in Hongkong hundreds of devotees keep on playing all the year through; even in the hottest days of summer they feel that it is good to shake off the tendency to lounge about, and indulge in a good stiff set or two, following it up with a delightful shower bath. One may lose a little in weight in this way, it is true; but the remarkable feeling of freshness which follows, more than compensates for this. Above all, tennis prevents one from becoming "liverish." And that is something in the Far East.

The New View.  
While it is the case that Hongkong can boast of many really good class players, the fact remains that a very big majority of those who go in for the game here do so merely because it provides a pleasurable exercise; they take but little pains to improve their style or to better their game all round. The League, however, is doing good work in raising the standard of play in the Colony, and in many of the eight or nine Clubs which take part in the competition there are to be found those who are steadily correcting their faults with an eye to inclusion in League teams, if not immediately at least some time in the future. Club tournaments, too, help in this particular direction. The game in all parts of the world has greatly developed during the past few years, and the view is now widely held among many of the best players that lawn tennis is, first and foremost, a stroke game. This view is upheld by such an acknowledged authority as Mr. A. E. Crawley, who adds to this dictum by saying that it is, secondarily, a game of tactics, and, to some extent, one of endurance and nerve. Mr. Crawley, of course, is an exponent of the "modern" game. It used to be held that steadiness, combined with severity of good tactics, were sufficient to win matches; but the new view of the game is that the first rate player must have "all the strokes." To put it another way, the man without strokes, but with much cunning, and the man with the simple qualifications of power and precision, have done well enough in the past; but fine execution and varying forms of power must now be displayed by the player who would excel his rivals. It is not enough to have a good service, but four or five good ones; and goodness knows how many kinds of drive. Then there are "chops," "winning half-volleys" and a bewildering array of other strokes.

Dangers of Fancy Play.  
The new conception of the game is decidedly interesting to follow, and no doubt it suits the idiosyncrasies of certain types of player. There is a fascination, too, about a new "fancy stroke" when one suddenly discovers it. But one can become far too partial to fancy play; a man gets the "cutting" habit and he "cuts" every ball which comes his way—or rather, attempts to do so. And in this way one's form is almost invariably upset as a consequence. The whole point is whether a player can accomplish the variety and retain sufficient precision; whether simplicity will be upset by complexity. It is to be doubted, for strong and comparatively simple play has accomplished much in the past, and it doubtless will gain many victories in the days to come. It is well, however, that we should take note of the new tendencies, keeping an eye on

its best features. In tennis, as in all other games, we can learn something from all schools of players, and by combining the best of each, nearest approach to perfection will probably be attained.

### DISCUSSING A SETTLEMENT.

This morning in the Summary Court, before Mr. Justice Kemp, Paines Judge, V.M. Conception sued A. Foster claiming to recover the sum of \$58 being as to \$36 rent for the top floor of No. 2 Morrison Hill Road, lately occupied by the defendant and as to the balance, for certain portions which the plaintiff alleged were wrongfully removed from his premises by the defendant.

Mr. F. O. Mason appeared for the plaintiff and Mr. P. W. Goldring, of Messrs. Goldring and Rues, for the defendant.

Mr. Goldring asked that the case should go into next Friday's list and applied for leave to file a counterclaim.

Mr. Mason, regarding the counterclaim, asked for the costs of the day.

Mr. Goldring urged that the question of costs should be reserved, but Mr. Mason in reply pointed out that the defendant had had plenty of time to file a counterclaim.

Mr. Goldring:—The only point is that we were discussing a settlement up to mid-day yesterday, and I thought the case was going to be settled and therefore I did not file a counterclaim.

His Lordship granted both applications and the question of costs was reserved.

### ADMIRAL FIELDER'S SUCCESSOR.

The retirement of Engineer-Rear-Admiral Fielder has given the highest step in his branch to Engineer-Captain W. T. Hocken. He entered the service thirty-two years ago as an assistant engineer, joining the Audacious, then flagship of Sir George Wills on the China station. Latterly he has been in staff employment afloat, serving successively in the Atlantic Fleet and the third and second battle squadrons. At the present time he is attached to the department of the Engineer-in-Chief at the Admiralty, for duties in connection with the engineering personnel.

### HONGKONG BATHING PARTIES.

Mrs Grundy at the War Office.

"Truth" of July 23 has the following:—

The War Office is hardly the place where one would expect to find Mrs Grundy sitting enthroned. But there she is. One of the favourite amusements of the colony at Hongkong—almost the only one, I believe, in the hot season—is a bathing party. Bathing from the shore being unpleasant, parties of ladies and gentlemen—ought one to blush in writing it?—go out in a launch to a convenient spot, and then go overboard in deep water. It should be mentioned that the launches are suitably fitted to allow of each sex dressing and undressing in privacy. All ages and all ranks take part in this amusement.

But an order has just been issued by the Director-General, Army Medical Department, forbidding the nurses of Queen Alexandra's Army Nursing Service to join such parties. The order is extremely hard on the nurses, who are thus deprived of a recreation which is almost a necessity of health in such a climate; for women cannot safely go on these excursions by themselves, as the bathing takes place in deep water, and even if they did so they would go in a launch with a crew of Chinese males. At the same time, the order seems decidedly insulting to all those officers, civil servants, ecclesiastics, and their ladies—who get up or join these parties. Who or what inspired Surgeon-Major Gabbins to make such a silly and obnoxious exhibition of himself, he alone knows. It certainly was not Queen Alexandra, and her Majesty would be the first to disapprove of this treatment of the service that bears her name.

### HIS EXCELLENCY.

Leaving for Home This Evening.

His Excellency the Governor is proceeding home this evening by the German Mail s.s. Lueltow. He is travelling via Siberia and is expected to be away for a period of four months.

During his absence the Hon. Mr. Claud Savern, Colonial Secretary, will act as Officer Administering the Government.

This is the first leave that H.E. the Governor has taken since his appointment as Governor of Hongkong. It will be remembered that Lady May and family preceded His Excellency some months ago. He intended going before, but urgent affairs kept him in Hongkong for some time longer than was originally anticipated.

The Governor is being accompanied by Mr. Mrs and Miss Bacon who have been staying at Government House.

### GOVERNMENT HOUSE RECEPTION.

There was a large gathering of residents at Government House last evening in response to invitations issued by H.E. the Governor to meet Mr and Mrs C. Clementi who are leaving the colony on August 27 for British Guiana, where Mr Clementi will assume the post of Colonial Secretary. The grounds were charmingly illuminated, the red lanterns used giving quite a pretty effect among the greenery of the grounds. The band of the 26th Punjab was in attendance and supplied a good programme of music.

### THE POLITE REQUEST.

Time:—9.15 a.m.  
Place:—Queen's Road Central, entrance to a jewellery shop.  
"Good morning! Can you lend me a diamond pin, a large one, to go with this tie?"  
"—!"

### H.M.S. TRIUMPH.

Hongkong Defences.

The "London and China Express" of July 25 has the following:—

It is said that the sending out of the battleship Triumph next month to the China Squadron will be the first step towards materially strengthening that squadron in capital ships, but that must be taken with much caution. As it is not a single capital ship can be spared from home waters, and the fact that a large amount of money—which will involve a supplementary naval vote—is to be spent upon the earlier class of Dreadnoughts—which are already "back numbers"—and the pre-Dreadnought ships shows that for some time at least no ships of first class fighting power will be sent to the Far East. As a matter of fact the Near East—the Mediterranean Station—has a greater and more pressing need for capital ships at the present time.

There is another naval matter which calls for more attention than the Admiralty has hitherto bestowed upon it—at least in recent years—and that is the arming of our coaling stations abroad. Such places as Gibraltar, Malta, and Aden are well armed, the latest things in guns having been mounted in the batteries of the first two named fortresses, and Aden is pretty secure against seaward attack. But there are other stations where the batteries which guard them could be materially strengthened, and Singapore is one of them. The position of Singapore is one of primary importance, it being the gate of the Pacific, and yet its harbour is none too well guarded against seaward attack. It is true that some time ago additional and more modern guns were mounted, but more could be done in that direction yet. Hongkong, too, could be improved, and such smaller places as the Seychelles and Labuan—which are only coaling depots—could be put in a state of defence with much advantage to our fleet in war time in those seas.

## SPECIAL CABLES.

## NANKING FALLS.

CAPTURED BY GOVERNMENT TROOPS.

(Our Own Correspondent)

Shanghai, Received August 20.

The Red Cross workers report that Nanking was captured by the Government troops last evening after heavy fighting through three days in a temperature in the shade of 104.

The Red Cross workers were fired upon by Chang Hsun's troops, which suffered heavily in the attack on Taiping Gate.

The rebels who fled from Wuchang are fighting the Northerners at Kading.

Commander Flees.

(By Courtesy of the "Chinese Mail")

Shanghai, Received August 20.

The Southern Commander at Nanking has fled, taking with him the Treasury funds.

The rebel soldiers are consequently without a commander and have declared loyalty to the Central Government.

Fung Kwok-cheung, commander of the Northern troops, has entered the city and everything is now quiet.

## NOTES FROM THE NORTH

## Method of Procedure in Presidential Election.

Peking, Aug. 13.

The Drafting Committee has resolved that an Electoral College shall be organized for the Presidential Election, for which it shall be necessary that there shall be a two-thirds majority of a quorum consisting of three-fourths of the total membership of both Houses. After voting the number of votes is insufficient for the election of any candidate, the two obtaining the greatest numbers shall be selected and re-voted upon; after which the one securing most votes shall be elected.

## Parliamentary Business.

The members present at the meeting of the Senate numbered 115. Pan Chieh-shin said that a time ago he introduced a motion requesting the punishment of the Speaker Chang Chi. He now desired to know whether the Vice-Speaker intended to bring this matter up for discussion. The Vice-Speaker denied that he was trying to shield Chang Chi.

The Vice-Speaker announced that regulations concerning the stamp tax had been circulated. The House resolved to accept the stamp duties.

In the House of Representatives Chang Pih-lioh urged a careful investigation regarding the arrest of Hsü Hsin-chun, a member for Kiangsu. Ku Chung-hsu and others argued that if arrests were due to high treason on the part of a member the House had no right to interfere. The matter rested in the hands of the Supreme Court. The House concurred, and authorized the Speaker to reply to the Government despatch on the matter explaining the views of the House.

## Uncertainty in Szechuan.

Peking, August 14.

Related advices from Chengtu report the institution of martial law. The anti-Government activity of the Kuomintang led to the suppression of the Kuomintang newspapers.

A disturbing feature of the situation is the presence in the neighbourhood of Taitung, whose revolutionary proclivities are well-known. Instead of returning to his duty in the Taitung

tan marches he is dallying on the Yachow Road. A force is being organized for despatch to Chungking. The Chungking forces are reported to be marching on Chengtu.

## The Desire for Peace.

Chengtu, Aug. 14.

People here are excited but the situation is regarded as safe. The Taitung has closed four pro-rebel newspapers and has proclaimed martial law. He asks the people to take precaution against agitators. The people generally are in favour of the Central Government, the action of Chungking in delaying independence being regarded as due to military influence while merchants express a wish that the foreign Powers shall exert their influence to prevent the rebellion continuing. Troops are leaving to-day for Chungking with the object of retaking Eastern Szechuan.

## The Situation in Nanking.

Nanking, Aug. 13.

All was quiet in Nanking last night. No more fighting occurred between the 1st and 8th divisions. The 30th regiment, belonging to the 8th division, which returned at first to join the rebels but was ultimately forced to recede, has been disarmed and sent out of the city. Ho Hai-ming is in complete control of the city, which is preparing to oppose the entrance of the Government troops. Men of the 8th division have occupied the fort on Lion Hill. General Feng Kuei-chang has arrived in Pakou. He is reported to have 15,000 men there and is expected to move against Nanking very shortly. "N.C. Daily News."

## A Little Slip.

A little slip—a printer's error, of course—in the 1907 edition of the Royal warrant detailing the various army rates of pay necessitated the printing and promulgation of an official correction. In that warrant, under the heading, "Daily Rates of Pay," appeared: "Field-Marshal Commanding-in-Chief, Mediterranean, £5,000." This gave to the Duke of Connaught the generous remuneration of nearly £2,000,000 a year—until the correction explained that "daily rate" in this case should have been "yearly rate."

## Sent to Hospital.

A Chinese from the s.s. Mex can City has been sent to the hospital suffering from injuries alleged to be inflicted by a man in custody.

## TYPHOON VICTIMS.

Seven dead bodies supposed to be victims of the typhoon, have been buried at Shek O by a body of police, supervised by Inspector Cameron. The bodies were from a fishing junk, said to be from Cheung Chiu. The master of the junk, who was injured, has been removed to the hospital.

## Octogenaria M.P.'s

Sir Thomas Roe, M.P., who has been celebrating the anniversary of his birthday, shares with Mr. Jesse Collings the distinction of being the only octogenarians in the House of Commons. Mr. Collings is eighty-two and Sir Thomas Roe his junior by a year. The oldest member is Mr. Samuel Young (Nationalist), who is ninety-one years of age, but the "Father of the House" is Mr. Thomas Burt.

## PASSENGERS ARRIVED.

Per s.s. Luetzow, arrived 20th inst. from Hamburg.  
Berk Wing, Lim Eow Cheng  
Boll, Rev. W. L., Lee Fah  
Croop, J. T., Martin, Mr. &  
Cheong Ah Seng, Mrs. H. E.

General Managers.

## LOG BOOK.

## Board of Trade Sight Tests.

The Imperial Merchant Service Guild are informed by Dr. F. W. Edridge-Green, the eminent ophthalmologist, that at the recent Annual Meeting of the Committee of the British Medical Association at Brighton he moved in the Ophthalmological Section the following resolution:

"That a recommendation be forwarded to the Council of the Association:—That the Sight Tests of the Board of Trade are not satisfactory and that an enquiry is urgently needed in the interests of the Mercantile Marine and the nation."

This was carried with one dissentient.

The Imperial Merchant Service Guild have just addressed a further important letter to the President of the Board of Trade

urging that he will at once abolish the new lantern test

which they contend is out of all accordance with the position as regards ships' lights at sea and

which they are of opinion has made the sight tests un-

doubtedly worse instead of better, is responsible for a

greatly increased number of failures and of grievous hardships to capable mercantile officers.

Passage Home and Half Pay.

The following correspondence has been forwarded to "Shipping and Engineering" by the China Coast Officers' Guild for publication:

The following reply has been received from Messrs. Butterfield &amp; Swire to the deputation of

senior masters which waited upon them with reference to their request for a passage home and

half-pay while on leave:—

Dear Sir,—The interview we had with you and three other

masters on June 27 was reported to Messrs. John Swire &amp; Company

and we are instructed to inform you that they regret they are unable to consider favourably your

application for higher remuneration as in their judgment a fair limit has been reached.

Messrs. BUTTERFIELD &amp; SWIRE,

Agents,

CHINA NAVIGATION Co.,

Dear Sirs—A copy of your reply to the deputation of masters

with reference to home leave and half pay has been laid before this Guild, and I am instructed

to inform you that the Committee very much regret your decision

in refusing to accede to their just demands, and the members of the China Coast Officers' Guild now

reserve to themselves the right to take any future action they consider necessary in this matter.

W. WILMER,

Secretary, C.C.O.G.

A deputation of three chief officers and two second officers

subsequently waited upon the agents of the firm to learn what

reply had been received to the request sent in on October, 1912,

with reference to passage home and half pay while on leave, as

## LESSONS IN CHINESE.

MR LI HON FAN, a Chinese graduate versed in literature

has been a teacher to European officials, and merchants in this Colony for over

ten years.

He has a good method of training

Europeans to pass in the Chinese ex-

amination, and is possessed of a first

rate certificate as a Chinese teacher.

He has also a good knowledge of

Mandarin and Hakka.

Those who intend learning the Chinese language are requested to write card

of "Hongkong Telegraph" office, or

direct to 37 Hollywood Road, 1st floor.

H. K. 1912. (714)

## CHINA IMPORTS LESS FLOUR.

## Depreciated Currency Responsible for Unsatisfactory Market.

The depreciated value of provincial notes and other Chinese currency of various kinds is the most influential element in a very unsatisfactory state of the flour market in China at present. In spite of the fact that arrivals in the first four months of the current year have been only about 56 per cent. of the arrivals in the same period of last year, and stocks on hand in Hongkong will run only about a third of those on hand at the corresponding period of the past season, the situation is, in some respects the most delicate flour importers have had for many seasons, and the essential trouble is in the cost of flour to the consumer in the currency he has for purchasing it, and not essentially in the gold price in the United States, as has generally been the case.

The arrivals of flour this year have been, in round numbers: January, 253,000 bags; February, 279,000 bags; March, 652,000 bags; and April, 189,000 bags; total, 1,373,000 bags, against 2,450,000 bags the first four months last year, divided as follows: January, 1,090,000 bags; February, 187, bags; March, 309,000 bags, and April, 814,000 bags. Stocks on hand at this period a year ago were about 1,800,000 bags, while at present they are only about 600,000 bags, though prospects of clearing stocks a year ago were better. Unsatisfactory conditions have existed more or less since the closing months of 1912, and present the outlook for a return to good business is not favourable. May deliveries will be comparatively large, and June deliveries will probably run to 800,000 bags. In the meanwhile, daily deliveries for Canton and other ports do not average over 2,000 bags, whereas, the normal

## The World's Cup of Health

In every country and in every clime, the supremacy of Sanatogen among tonic foods and reconstituent remedies is now abundantly recognised and warmly praised.

It exercises the most powerful influence over all disorders of the stomach and nervous system which manifest themselves in such depressing symptoms as Insomnia, Uncontrollable Lassitude, Disinclination for Mental and Physical Activity, Loss of Memory, so-called "Nervous Dyspepsia," Anemia, and Chronic Diarrhea.

With its use, these alarming symptoms rapidly disappear. The patient regains his normal outlook on life, takes a keener interest in his work and play, and feels better than he ever did. Start taking Sanatogen to-day, and see how wonderfully it will benefit you.

The Right Hon. Sir John Gorst, Privy Councillor to the King of England, writes: "Sir John Gorst has taken Sanatogen with excellent results. It was also used by a daughter of his with great benefit."

His Grace the Archbishop of Bombay writes: "I use Sanatogen every now and then, under my doctor's advice, and always derive great benefit from it."

## SANATOGEN.

## The Tonic Food with Lasting Effects.

Sanatogen has been endorsed by over sixteen thousand physicians, including ten physicians to crowned heads.

Countless thousands of men and women, including many celebrities, have found it the restorer of health, strength and happiness, and have recommended it to their friends that they, too, may acquire these blessings in the fullest degree.

## WRITE FOR FREE BOOK.

Buy a bottle of Sanatogen to-day: it is sold by all Chemists. And write for a Free Copy of "The Art of Living," by Dr. Andrew Wilson, the well-known medical author. This interesting book tells you all about Sanatogen, and also contains a great deal of valuable advice on health topics. Write at once, mentioning this paper, to the manufacturers of Sanatogen, Messrs. A. Wulff & Co., 5, Kiukiang Road, Shanghai.

## THE NIPPON.

Rumoured Intention of Filing a Counter-Claim.

The legal path of Erlanger and Galingier is not to be strewn with roses, unless there is error in the statement made this morning in the office of Struckmann and Company, agents for the underwriters of the Nippon cargo, says the "Manila Times" of August 13.

This was to the effect that on behalf of the underwriters, Struckmann and Company would, at the proper time, file a counterclaim against Erlanger and Galingier for unnecessary loss and damage to the cargo through alleged faulty methods of salvage and delay in lightening the vessel.

Members of the Struckmann firm would not verify the statement, but referred the "Times" man to their attorney, who could not be located before press time.

In this connection it will be remembered that numerous objections were made by Struckmann and company and other interested parties to the methods employed by the salvagers in removing cargo from the Nippon, the claim having been put forth that in the hands of experienced men the work would have gone forward more rapidly and a greater percentage of the cargo, with which the stranded vessel was loaded, would have brought better prices when auctioned off in Manila.

## The Jewel House.

The Jewel House at the Tower of London has been reopened to the public until further notice, under the usual regulations.

## COMMERCIAL.

## Mojl's Coal Exports.

The shipments of coal from Moji during July last totalled 238,784 tons, showing an increase of 93,005 tons on the quantity for the corresponding month of last year, an increase of 55,282 tons on the figures for the previous month. Compared with the last figures exports alone show an increase of 76,183 tons, principally in shipments to Hongkong, Manila and Singapore.

## Japanese Companies and English Loans.

A significant departure in Far Eastern finance is the recent successful negotiation in England of loans for Japanese companies. Hitherto, business loans abroad for Japan have been in the shape of debentures for undertakings which were more or less under Government control. Recently, the Oji Paper Mill Company, Kanagafuchi Cotton and Ensuiko Sugar Companies are all reported to have negotiated loans with banks in England, through the Mitsui and Yokohama Specie Banks. The interest paid is about 7 to 7½ per cent., which is what the companies would have had to pay if the loans had been negotiated within Japan itself. The borrowing concerns are sound, the guarantees are good and the lending banks are obtaining good interest; hence the parties concerned have every reason to be satisfied with the bargain.

## Famine in Yunnan.

Talifu, Aug. 5.—A state of famine exists in some districts. Rice and wheat continue to rise in price and people of the poorer classes are suffering in consequence. Many are subsisting on the bark of trees, while large numbers have died.

## COMMERCIAL.

## Coconut Oil Prices.

Recent developments in the market for coconut oil are not at all to the liking of the consuming public. Prices are higher than at any time during the year and in fact higher than at any time in 1912. The market has been on an upward turn for some months and this has led consumers to buy sparingly under the impression—the wish being father to the thought—that prices would give way when new supplies reached the various markets. This neglect of buyers to provide for future wants makes the present situation all the more acute since many find themselves forced to bid for stocks in the present market when their price is an invitation for dealers to advance values still higher. The monsoon period is on in India, which is not favourable for shipments from that country even though ample stocks were held there, which, however, is not the case, for scarcity of oil extends to primary points as well as to the consuming countries. Reports from Liverpool state that Ceylon oil is held there at 10½ per pound c.i.f. New York and spot oil in this market cannot be bought under 11c. per pound. Holders of oil have the situation well in hand and realising the position of buyers they are demanding prices which the former must accept or else leave their needs unfilled. All grades of coconut oil are affected by this temporary condition and prime East India Coochin is quoted at 12 and 12½ for spot parcels. Foreign operators have been buying steadily regardless of prices asked and offerings are not accumulating in sellers' hands as a result of the rise in prices. Small shipments of copra have been the underlying cause for the scarcity of oil and the raw material now offered is at such a price that present values are low in comparison. Exports of coconut oil into the United States during May were 2,952,615 pounds, valued at \$246,217, which is considerable below the average monthly consumption in this country. The figures of decreased imports tell the story of why the domestic trade is practically bare of stocks and furnish statistical proof that present prices are founded upon material grounds. However, the fact that shipments are below spot prices indicates that the present stringency is but temporary, though there is no indication that coconut oil prices will recede to any extent and the outlook favours a continuance of comparatively high prices such as have ruled during the past few months.

The market for coconut oil was strong in all quarters, and new high records were established abroad. The scarcity of oil for prompt and nearby shipment, and the firm market for copra at primary centers is the cause for the advance, and trade authorities look for no material change in the situation in the near future. Trading was good throughout the week, and reports from abroad state that consumers have been buying up all offerings, almost regardless of the price. Friday's cable from London quoted Ceylon oil July-August at 45 12s 6d per ton, and August-September at 44 17s 6d, the latter figure being equal to about 10½ per pound, c.i.f. New York. Sales of round lots of Ceylon oil were reported in the local market at 10½ per pound forward shipment, and while some odd lots of spot oil changed hands at 10½, the asking figure at the close was 11c. Shipments of new crop copra have been coming forward slowly and dealers contend that the cost of the oil is comparatively low when the raw materials are taken into consideration. Coochin oil was wholly nominal, and as no shipments of new oil may be expected for some time, sellers had things very much their own way. Spot oil closed at 12c to 12½ per pound, with small lots sold at the high figure. Futures closed at 11½ per pound. (New York Oil Reporter.)

## MRS. LAVINIA'S BIRTHDAY

Made in Australia.

If the announcement that the Australian Railways have decided to order 80 locomotives from British makers be confirmed, it would seem to point to an important reversal of policy. For some time past it has been the practice to construct as many locomotives as possible in Australia, to benefit local labour and industries, although this is considerably more expensive than buying them from England, even when taking into account the cost of freight.

Church and State.

M. Edouard Aynard, who died recently in the French Chamber, was for nearly a quarter of a century the Parliamentary representative of Lyons, his birthplace. He was a recognised authority on economical, industrial, and financial questions. M. Aynard, who was several times elected Vice-President of the Chamber, took a firm stand in recent Church and State discussions, advocating tolerance both to Churchmen and secularists.

## BENEFIT CONCERT.

A very excellent concert was given last evening at the R. E. Theatre, Wellington Barracks, the proceeds of which are for the benefit of Sapper L. Royse R.E. who lost his leg as the result of an accident. The first part of the programme was devoted to instrumental and vocal items, and the second to the "Area Belle" a farce, which while it has been already played in Hongkong, was decidedly worth repeating. Among the vocalists special mention should be made of Messrs W. B. Cawsey and R. E. White who gave some excellent solos, and combined well in duets. "Dainty Daisy" Lookyer gave a charming dance, his make up being decidedly good, and Captain Robinson, A.O.C., contributed two fine comic songs which were heartily appreciated.

"The Area Belle" was remarkable for the good performances of Messrs. Lookyer and Walden, as Penelope and Mrs. Croaker respectively. Both were well made up, while the business of Mrs. Croaker, was only excelled by the dainty acting of Penelope. Sapper Reynolds, R.E. was a fine "Chalk" and made love in a pleasing manner. The Tosses of Corp Brand, A.O.C. was sustained in excellent manner and his comic passages with the efficient Sapper Dickie, as Pitcher, kept the house in roars of laughter.

The full programme was as follows:—

- 1—Overture, "The Great Divide" Lewis Maurice, Orchestra.
- 2—Song, "In good old Tennessee" Gun. Turner R.G.A.
- 3—Song, "The Bandolero" Leslie Stuart, Mr. R. E. White.
- 4—Dance, "Dainty Daisy" Lookyer.
- 5—Song, "To cheer him up" Alec Kendal, Mr. A. B. Allen.
- 6—Song, "Love could I only tell thee," Mr. W. B. Cawsey.
- 7—Lightning Sketches, Prof. Ded. Upward.
- 8—Peculiar Solo, "Polacca Piccaroon" Q.M.S., E. Jenkins.
- 9—Step Dance, Tptr. Miller, R.G.A.
- 10—Song, "The Fireman," Capt. Robinson.
- 11—Duet, "Flow Gently Dava," Parry, Messrs. W. B. Cawsey and R. E. White.

Overture, The Merry Widow, Franz Lehner, Orchestra.

The Area Belle. An Original farce in one act, cast:—Tosser (Soldier) Corp. A. Brand, A.O.C.; Pitcher (Policeman) Sapper T. Dicks, R.E.; Walker (Chalk) (Milkman) Sapper W. K. Reynolds, R.E.; Mrs. Croaker (The Misanthrope) Miss "Liz" Walden; Penelope (The Area Belle) Miss "Daisy" Lookyer.

Scene.—A. Kitchen.

Orchestra:—Violins:—Mr. J. G. Flynn; Q. M. S. E. Jenkins, R.E.; Corpl. Reynolds, A.S.O.; Cello, Mr. S. Paul; Flute, Corpl. R. Alexander, D.O.L.I.; Cornet, Pte. O. Howell, D.O.L.I.; Pianist:—Mr. M. D. Silas.

Machinists:—Sappers. Trill, Wardman and Page, R.E.; and Scenery Painter, Sapper Durward, R.E.

## COMPANY REPORT.

The China Mutual Life Insurance Company, Limited.

The fifteenth annual report of the China Mutual Life Insurance Co., Ltd. states:—

The Directors have pleasure in presenting their report for the year ending 31st March, 1913.

New Business.—New applications received during the year amounted to \$12,358,706.

Policies were issued for \$11,020,722 and applications for \$1,387,884 were postponed or declined.

Three annuities were granted for a total of \$888.16 per annum in consideration of single Premiums of \$11,532.88.

The total Insurance in Force on 31st March, 1913, amounted to \$45,037,030 of which policies to the amount of \$359,192 were re-insured.

Income:—The Income for the year amounted to \$3,981,764.12.

Assets:—The total assets now amount to \$11,958,437.26 an increase during the year of \$857,380.73.

Payments on Policies:—The total amount paid to policyholders and beneficiaries during the year amounted to \$2,152,248.39 making a total of \$9,238,890.87 paid since the Company's inception.

The Accounts have been audited by your Auditors, Messrs. G. H. and N. Thomson who have given their certificate. They retire, but are eligible for re-election.

The present Directors of the Company are Messrs. C. R. Burkill, C. Stephens, A. M. Marshall and A. W. Burkill.

Mr. A. M. Marshall was elected to fill the place of Mr. J. A. Wattie who retired on his departure for Europe, and Mr. A. W. Burkill was elected during the year, both of which elections you will be asked to confirm.

In accordance with the Deed of Settlement Mr. C. R. Burkill retires, but being eligible, offers himself for re-election.

The Office of Managing Director has been allowed to lapse and the management has been entrusted to two managers, viz., Mr. S. B. Neill, F.I.A., F.S.S., who is now Manager and Actuary and Mr. J. K. Tweed who has been appointed Manager and Secretary.

Mr. George King, F.I.A., F.F.A., F.A.S., the Company's Consulting Actuary, was invited to visit Shanghai in connection with the Quinquennial Valuation as at 31st March, 1913, and to report on the financial position of the Company generally. His report will be presented at the Meeting.

## PIRATES AT NAM TAU.

We have been informed that pirates at Nam Tau have been giving the residents of the district considerable trouble, and the people have sent a message to the Chinese Authorities at Canton asking for immediate assistance.

## BUNKERS

can be supplied at cheap rates.

SANDAKAN & SFBATTIK (British North Borneo).

At these ports steamers calling for bunker coal exclusively are exempt from all shipping dues and charges.
